DAN LOUGHNAN

Freelance Location Sound Recordist

January 2017

I've been working in broadcast media since my teens mostly in music and sound production, and have been a fulltime freelance location sound recordist since 2002. I've worked in all facets of location sound over the last 15 years, including HOD roles in Drama, Comedy, TVCs, Corporate, Documentary, Travel and Factual Entertainment.

My equipment list is long and detailed (see the equipment page on my web site), and I can facilitate anything from a feature film to a multi-crew reality show. For Documentary and Travel I have various top of the line in-bag options, and for Drama and TVCs I have a complete custom-built location sound cart.

I've mostly worked out of Auckland, but have also been based in London (2006-08) and Sydney (2014-16). Currently I am based in Melbourne. I have a wide range of NZ, UK and Australian production companies and networks on my client list, and extensive experience shooting all over the world, hence my company name!

Work history
