WARREN KEUNING

PROFILE / BIO

I have the experience and production skills to research, budget, scout and execute any size project. I predict, or solve problems, reduce unnecessary costs and ALWAYS deliver a quality product within the proposed budget. I will not rest until the job is done perfectly. No errors - No excuses.

All my knowledge of the this industry has come from hands on experience after being on-set for over 17 years. My dedication to my craft, travels and marketing strategies have helped me make hundreds of business contacts both in Australia and around the world.

Language: I hold both Australian and South African citizenship, and I think, dream, write and speak fluently in both Spanish and English.

EXPERIENCE

LINE PRODUCER — FREELANCE

I have successfully produced content, TVC's, documentaries and other VR/360 projects for various Australian production companies such as: The Finch Company, Exit Films, The Sweet Shop, 13 & Co, Luscious International, among others.

Recent examples of my work:

<http://www.campaignbrief.com/2015/03/aussie-kids-talk-sport-with-un.html>

PRODUCER, LUSCIOUS INTERNATIONAL — 2011 - 2014

I successfully pitched, planned and executed many TVC productions in Australia, New Zealand, India, Thailand and South America. I was actively involved in the marketing of international directors for the company.

OWNER / EXECUTIVE PRODUCER, TRIBU INTERNATIONAL, COLOMBIA & URUGUAY — 2000 - TO DATE

Noticing the lack of professional production companies that offered film services to international clients in South America, I founded Tribu International. As the executive and line producer in just a few years I positioned my company as the most successful international service company in Colombia. Evidence of our work can be seen here: www.tribu.com.co and www.tribu.com.uy. As a result of working throughout South America for many years I now count on a vast network of international clients, producers, crew and suppliers.

EDUCATION

University of Natal, Durban, South Africa — 8 semesters, Civil Engineering.
