- Clients include Coke, American Express, Vodafone, Roxy, Toni + Guy, Huggies, Panadol, Nestle, Listerine, RAC, HSBC, Phillips, JSK, Milo, Valvoline, St George, Bayer, IBM, Kelloggs, The Iconic and KFC

### Professional Experience

**2011 –** Bento Productions (**STW Group**) Audio Engineer and Sound Designer

My role involves working with advertising agencies (primarily Ogilvy, JWT Sydney and Jay Gray) to produce and engineer audio material for broadcast and multi-platform distribution. This includes content from all stages of the production process, from animatic to final mix. While at Bento Productions I have trained myself and become proficient in using the 'Xynergi' Fairlight console.

**2007 – 11** ABC Television Ultimo Audio Post Production Engineer

The ABC Television Audio Post Sound Department was a great training environment and is where I learnt a lot of the craft and technical fundamentals required of an Audio Post Engineer. I worked a lot within the Promotions department and then later moved on to mixing program material. While at the ABC I gained proficiency on the Digidesign ICON console.

**2005 – 06** Playroom (Omnilab Media Group) Media Services Assistant

Graduate position out of university before becoming an audio engineer. My responsibilities included the editing, dubbing and converting of videotape content for various productions as required and the digitizing and compression of videotape content for web distribution. I gained experience in the program 'ScheduALL' while supervising and organizing of the videotape library system.

### Education

2006 - BA, Arts (Television Production) Charles Sturt University, Wagga Wagga NSW

Pro Tools Certification (201: Pro Tools Production)

Pro Tools Certification (101: Pro Tools Essentials)
