## TIM STRINGER

**Disciplines:** Multi Camera, PSC, ENG, Track & Dolly, JIB, Live  
**Formats:** HD, UHD, DSR, Minicams, Covert cameras, DSLR, 3D  
**Other Skills:** Stereography, Photography  
**Education:** 1st Class Hons Degree - Photography and Digital Imaging/Video Production  
University of West London

**Career Summary:** My career began in photography in London, 1998, covering the fashion and corporate industries, where I developed a love for the moving image. I later joined Procam Television, the UK's leading broadcast hire company, working as a camera assistant and assistant manager of their Kit room. When they opened up a 3D division, I moved into stereography and worked on various 3D projects, delivered lectures and training around Europe and Asia. However I still preferred the variety and freedom of 2D filming and composition and became a staff camera operator, before going freelance. I have been operating since 2009 using all the latest technology and equipment available. Working mostly on multi camera television shows, PSC and ENG set ups. I have recently emigrated to Australia and am looking forward to the new challenges that it offers me.
